

ACQUAINTANCE RAPE: THE UNTOLD TRUTH

Three Survivors. Three Stories. Many Impacts.

66% of rape survivors will be sexually assaulted by someone they know. Acquaintance rape is one of the most misunderstood crimes in our country. The victim is often vilified and the offender is often excused. Education is the key to changing this attitude, but it's difficult to get survivors to come forward and share their stories for fear of being blamed.

Until now.

Join us on a journey as three brave survivors come forward and share about being raped by someone they know. The women will highlight the events of their ordeal while discussing the short and long term impacts from their crime. As true survivors, they will walk the viewer from their victimization to how they overcame and are now living successfully on the other side – providing hope to anyone fortunate enough to learn of their strength.

Video Details: Total running time: 35:07 mins

- Includes the three stories of the survivors intertwined so viewers can easily see the most common impacts as well as receive encouragement as the three survivors talk about how they overcame this negative experience.
- Includes the three individual stories so presenters can easily work within the time available to them. The three individual survivor story running times are 14:55 mins, 10:30 mins, and 15:40 mins.
- Includes an easy-to-use discussion guide for group facilitation.

Price: \$85.00 (includes shipping and handling)
